

# Meredith Antanavage, MOT, OTR/L

**Meredith Antanavage, MOT, OTR/L** is an Occupational Therapist at Pennsylvania Hospital and received her Occupational Therapy degree at West Virginia University. Her clinical expertise is in the intensive care nursery. Her endeavors include an interdisciplinary supportive positioning protocol to decrease intraventricular hemorrhage as well as the development and implementation of a unit-wide standardized developmental positioning protocol for nursing.

Meredith is an active member of The American Occupational Therapy Association and has presented and published at the national level on the intensive care nursery as well as other acute care topics.
